RE: Docket No. 2009-489-E

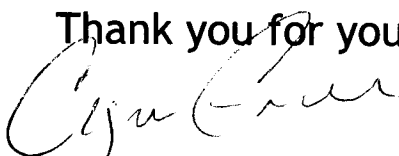

To Whom It May Concern:

I do not agree with the request to have our electric bills increased by 10 percent and would like for your office to deny any request made by SCE & G to do the same.

For years this company has had the monopoly on the area and I feel like someone needs to investigate this company. At the local payment centers you are made to feel small if you cannot pay your bill in a timely manner. And now we see that the arrogance of the workers must come from the top.

SCE & G has too much control over the average household's income because of these seasonal requests for a rate increase. Please do not allow this company to continue to price gauge our households. Deny their request for a 10% rate hike.

Thank you for your time.
